loanAI-teepjbzazuqm4

Confidence: 92%

Relevant Articles: Annex III §5(b), Recital 158, Art 6(2)

Suggestions:

- Ensure human oversight in credit decisions
- Integrate risk management and post-market monitoring with existing financial sector obligations
- Maintain comprehensive documentation and transparency
- Coordinate with national financial supervisory authorities for compliance and market surveillance

Relevant Articles: Annex III §5, Art 6(2)

Suggestions:

- Ensure human oversight in credit decisions
- Integrate risk management and post-market monitoring with existing financial sector obligations
- Maintain documentation and transparency as per Directive 2013/36/EU and relevant EU financial services law
- Coordinate with national financial supervisory authorities for compliance and market surveillance

Relevant Articles: Annex III §7, Art 53, Art 13, Art 12

Suggestions:

- Implement strong transparency and documentation measures
- Ensure human oversight and clear instructions for use
- Enable logging and record-keeping of system events
- Assess and mitigate risks to fundamental rights of employees
- Consult with workers' representatives and comply with national labour laws

Relevant Articles: Article 53, Annex III (potentially, depending on use case), Article 13, Article 12

Suggestions:

- Ensure transparency and clear instructions for use (Article 13)
- Implement robust logging and record-keeping (Article 12)
- Assess and mitigate risks to fundamental rights, especially privacy and worker rights
- Add human oversight and clear documentation of monitoring practices
- Consult with workers' representatives and comply with national labour laws
- Conduct a conformity assessment if the system is considered high-risk under Annex III

Relevant Articles: None specified

Suggestions:

- Monitor for future regulatory updates
- Ensure compliance with general EU AI Act obligations
